Om Freight Forwarders Pvt. Ltd.

Case study: Om Freight Forwarders Pvt. Ltd.

Om Freight Forwarders Pvt. Ltd Maximizes Profitability and Improves Client Satisfaction with Visual Accounts.

Om Freight Forwarders Pvt. Ltd. decides to use Visual Accounts after using Visual IMPEX.

Overview

Om Freight Forwarders Pvt. Ltd. has been involved in the international freight forwarding and customs brokerage industry for more than four decades.

With its headquarters in Mumbai, Om Freight has branches in all major cities and commercial hubs in India as well as international offices in China, South Africa and Singapore.

An ISO 9001:2000 certified company, Om Freight provides its services to companies from diverse industries in more than 700 locations all over the world. It employs more than 400 qualified professionals to run its global operations and to deliver high quality services to its international clients.

Some of their clients are Reliance Communications Ltd, Taj Group of Hotels, Adlabs Films Ltd., Larsen and Toubro Ltd., BHEL, Kodak India, Yash Raj Films, etc.

The Problem

Om Freight was in the process of integrating its operations across its different departments. It had already implemented Visual IMPEX in order to streamline customs compliance processes in its organization.

The financial aspect of its operations was not integrated into its overall functioning. Hence data had to be manually entered into the other financial accounting software they used, leading to costly errors and revenue leakages. Om Freight wanted to minimize the errors in its operations.

In addition to that, the company wanted to improve client satisfaction by implementing new technology that would make their operations transparent since stakeholder visibility is critical to the smooth functioning of the operations of a freight forwarder.

<p>Challenge To streamline the financial aspect of Om Freight's operations across its different operational sectors</p>	<p>Solution Implementation of Visual Accounts, to completely manage the financial aspect of Logistics Operations</p>	<p>Benefits The complex financial accounting processes in logistics industry are managed effortlessly</p>

Why Visual Accounts

Impressed by the features of Visual IMPEX, Om Freight did not think twice before implementing Visual Accounts to streamline its accounting operations. Its primary requirement was to purchase an accounting software system that was compatible with Visual IMPEX.

Concrete Benefits that Visual Accounts Helped Deliver

Visual accounts helped Om Freight manage its profitability and productivity better by

- Tracking transactions right from quotations, advances, brokerage and recoveries thus preventing revenue leakages from unbilled expenses.
- Reducing administrative overheads by enabling invoicing as well as service tax management from a single software package.
- Providing greater control through the creation of various reports for:
 - Unrecovered expenses
 - Job wise/ party wise profitability
 - Unbilled Job reports
 - Employee wise accounting
- Integrating data with Visual IMPEX
- Providing timely customs regulation updates thus enabling Om Freight to calculate customs duty amounts according to the latest regulations

Application Infrastructure Snapshot

Visual Accounts does not have any special requirements.

- MDAC 2.6 or above (For database processing)
- Windows XP/2003 with Service pack 3 or above
- Windows Explorer 6.0 or above
